PARTNERSHIP HIRING OPPOSED. T. J. Kelley Against School Commit-tee and Y. M. C. A. Engaging Phy-

sical Director, but Motion Prevails The last regular meeting of the town school committee for this year was held in the selectmen's room in the town building Wednesday evening with seven members present. The matter which brought forth the greatest amount of discussion was the report presented by H. C. Lathrop made by the committee appointed at the last meeting to talk over with a similar committee of the Y. M. C. A., a choice of a physical director for the high school. The committee recom-mended the hiring of such an instructor to perform the work necessary at the high school and also at the Y. M. C. A. The cost to be paid in pro-portion of 2-5 by the town and 3-5 by the Y. M. C. A. Corporation Coun-

the board, opposed the passage of a motion that this course be pursued, saying he did not think the town should go into partnership with any other institution in hiring one of its faculty and that difficulties might erise over the contract. He did not know whether the town, the Y. M. C. A. or both together were to hire such an instructor and did not approve of the indefinite arrangement proposed. Principal Case of the high school stated the ideal way was to have a physical instructor for the high school alone, a good man at a salary around \$1,500, but he had not thought the town willing to do this so the present plan was formulated, enabling both institutions to get a better man at less cost than either could get alone. There was a long discussion on this proposition but the report was accepted and the motion carried with the conditions that the salary does not exceed \$1,500.

For the teachers' committee Curtis Dean reported that they had engaged Miss Hallen at a salary of \$550 and Miss Vail at a salary of \$550 for the Natchaug school and the report was accepted. George S. Elliott for the committee appointed to look into the matter of typewriters for the high school could be installed at the bid school recommended the purchase of the building in turned over to the procure that number. ATTEMPTED SUICIDE.

Smith, Despondent, Tries

Cut His Throat. George Smith, an inmate of the mate of the almshouse, attempted suicide Wednesday morning. He was found sitting in a chair, with blood flowing from a cut in his throat. A razor was beside him on the floor, covered with blood. Smith was discovered by another of the inmates on rising in the morning, and he hastened to call Superintendent Chambertain, who with his wife, rendered temporary aid. A physician was sent for and Smith, an inmate of the who with his wife, rendered temporary aid. A physician was sent for and Smith was rushed to the hospital upon the arrival of the physician.

Smith had been an inmate of the institution for many years, and had grown despondent lately, because of an attack of Bright's disease. He had not shown any symptoms of derangement, however, which would lead the officials to think he was in any danger of making such an attempt as he

The lawn was decrated with American flags and Japanese lanterns. Refreshments were served and a pleasant time was enjoyed by all who attended.

Green Apple Time.

Small boys are already beginning to hunt for apples. The barefoot boy with a handful of sait in one hand and a stone or club in the other is almost as much of a pest to the owners of apple trees as the caterplilar. With stealthy tread and upturned face he advances and, regardless of conse-quences, beats and batters the tree to secure the little green gems which fall. The only damage is to the tree, al-though the children bolt the unripe fruit until it is a physical impossibility to devour any more

The fing exercises held at the Dan-ielson graded school were exceedingly interesting and indicated the faithful and patient work of the teachers; the patriotic songs and marches by the pupils gave evidence of loyal atten-tion and obedience on the part of the pupils and was good to see. It was remarked that it was a pity that more of the parents were not present, for otherwise they can have no idea of the fine work done by the teachers and fine work done by the teachers and pupils.
